9.	Loading GMM (Acrobat Reader 5.0).....	11
10.	Web Site for Electronic Maintenance Library .....	12

## **WEB ADVISORY # 1 - SEPTEMBER 14, 2000**

To ALL,

It has come to our attention that some computer systems are having IE 5.5 installed on them. This is unauthorized and is causing compatibility problems with other programs (AVN-300 CBI Training). AVN only supports IE 4.2 to 5.0 **not 5.5**. The lack of appropriate coordination, documentation and scheduling of any software change causes an **unnecessary** expenditure of limited resources in resolving **self-induced** problems. All software installed must have the approval of AVN-22.

Thanks, Don

**NOTE: Upon further investigation, AVN only supports IE 4.x.**

## WEB ADVISORY # 2 - November 15, 2000

To ALL,

This Web Advisory is for web printing assistance:

1. If any aircraft inspection is to be printed in its entirety, then the printer must be set to 300 dots per inch (dpi) and the printer memory tracking (Conservative to Aggressive) must be set on 9 marks from the left.

Select Web Task Cards page

**"<http://www.mmac.jccbi.gov/avn/300maint/Cards.html>"**

Select aircraft and inspection to be printed and enter.

Select File and then Print.

In the Print Window, select Properties.

In the Properties Window, select the Graphics tab.

In the Graphics Window, select 300 dots per inch, click the Resolution: drop down box and select Device Options tab.

In the Device Options window, drag and down the Printer memory tracking pointer on the ninth (9) mark from the left on the Conservative to Aggressive scale.

Click the Apply button, then OK and proceed with print job.

**NOTE: This is applicable for a HP LaserJet 4 only. Other printers will be similar.**

2. If any single Task Card is to be printed, first find what inspection the card is in by using the aircraft card indexes and then selecting the pages to be printed in the appropriate inspection.

Select Task Cards Web page

**"<http://www.mmac.jccbi.gov/avn/300maint/Cards.html>"**

Select aircraft type and Task Card Index.

Select the Find function (binoculars) and in the Find What box type in the narrative or card number to be located.

Select find in the Find Box and the cursor will relocate to the desired card.

**NOTE: The desired inspection period in the third column.**

Select aircraft type and noted inspection period.

Select Card number on left column bookmarks. (Note page number at the bottom of screen).

**NOTE: This function will only work if you are using Adobe Acrobat. This will not work with Adobe Reader.**

The "Print" function will print out all of the Task Cards for the selected check by selecting OK in the print pop-up information box. Individual Task Cards can be printed out by finding its start and stop page numbers and selecting the Print function. In the print pop-up information box, select within the Print Range, Pages from Start page number to End page number, then select OK. The individual Task Card will be printed out.

The "Reset Form" function erases the form data for reuse.

## **1. Service Check**

- A. Access AVN-300's Electronic Maintenance Library at:  
**<http://www.mmac.jccbi.gov/avn/300maint/maint.html>**
- B. Select Maintenance Task Cards in the Program's section.
- C. Select the desired aircraft and Service Check.

- D. Type the desired information for:  
N-Number  
Work Order Number (Airframe)  
Work Order Number (Avionics)  
Date  
Package Title

- E. Select Print and OK to print out the Service Check.

The "Print" function will print out all of the Task Cards for the selected check by selecting OK in the print pop-up information box. Individual Task Cards can be printed out by finding its start and stop page numbers and selecting the Print function. In the print pop-up information box, select within the Print Range, Pages from Start page number to End page number, then select OK. The individual Task Card will be printed out.

The "Reset Form" function erases the form data for reuse.

## **2. A Check**

- A. Access AVN-300's Electronic Maintenance Library at:

Either page down to the last page of the card or select next card in the bookmarks and page back one. (Note page number at bottom of screen).

Select print in the Adobe tool bar and in the print range select pages.

Enter from page number and to page number in the appropriate boxes and then OK.

Desired card will be printed.

**If anyone has problems, please call me at 405 954-3950 (daytime) and 405 376-5162 (evenings).**

Don, the Web Master

### **WEB ADVISORY # 3 - December 6, 2000**

To ALL:

If you have Internet Explorer (IE) 5.x installed on your computer and are having Computer Based Instruction (CBI) problems, we have found that you can reinstall a previous IE version and this will solve your problem. This can be accomplished by:

Selecting Start on your Desktop  
Select Settings  
Select Control Panel  
Select Add/Remove Programs  
Select the Install/Uninstall tab  
Select Microsoft Internet 5.x in the selection window  
Select Add/Remove button  
Select install previous version button and OK

This process will remove your current IE version and install your previous version. I had installed IE 5.0 on my machine to functionally check CBI and it worked about half the time. I reinstalled IE 4.7 using this process and my CBI works all the time. Call me at 405 954-3950 (daytime) or 405 376-5162 (evenings) if you have any questions.

Don, the Web Master

## **WEB ADVISORY # 4 - January 26, 2001**

To All:

We are in the process of activating all the forms in the General Maintenance Manual (GMM) and the Repair Station Manual (RSM) on the Federal Electronic Document System (FEDS) Web Site for our use. These forms will be fully functional (fill out, save, print, attach, etc.) with a free Omniform software plug in. It will work similar to the Adobe Reader. In order to get the best and most current product on the Web Site, we are requesting all form users to review all AVN-300 forms. If you are using in-house forms that are not in the GMM or the RSM, any current forms needing revising, current forms not used or any combination therefore, please get with our office so we can correct it. Last year we obtained management control of all of our AVN-300 forms from the Depot. So, with a minimal effort, we can revise our forms as desired. These forms are only as functional as the users imagination, so be proactive with your maintenance program. It is your program!!!!

Contact Gerald McDaniel x46543 or Don LaBrosse x43950 for action.

Don, the Web Master

**WEB ADVISORY # 5 - April 9, 2001**

To ALL,

We have established a copy of the AVN-300 Electronic Maintenance Library in the following local folders for Battle Creek and Sacramento maintenance personnel:

Battle Creek

**\\avnbtls2\apps\Avn328Web\**

Sacramento

**\\avnsacs2\apps\Avn328Web\**

These folders and the associated files will mirror the AVN-300 Electronic Maintenance Library Web Site at "**<http://www.mmac.jccbi.gov/avn/300maint/maint.html>**". They will be automatically updated on the 7th and 22nd of each month in the evening. These local folders will eliminate the download problems the remote maintenance personnel are experiencing. Please contact your local LAN administrator for Map Drive and desktop shortcut setup.

If you have any problems, please call me at 405 954-3950/3406 (work) or 405 376-5162 (home).

Don, the Web Master

## **WEB ADVISORY # 6 - May 9, 2001**

To All,

This advisory is to provide the update schedule on the Electronic Maintenance Library Web Site. This information will be provided from most frequent updates to least frequent updates.

<b>Frequency</b>	<b>Update</b>
1st & 15th of each month:	Maintenance Task Cards
7th & 22nd of each month:	BTL & SAC local server update
Monthly:	TI Check List Sorted by # TI Check List Sorted by Date Engineering Order Log ARR Status Report Maintenance Review Board Report
Quarterly:	Fleet Reliability Report
As Needed:	All Others: A special cc:mail message will be transmitted to all if a policy manual is revised.

If the update occurs on a weekend, then the update will be accomplished on the next preceding workday.

If any questions, please call 405 954-3950 (day) or 405 376-5162 (evening).

Thanks,  
Don, the Webmaster

## **WEB ADVISORY # 7 - October 7, 2001**

To All,

All computers have or will be, in the very near future, upgraded to Internet Explorer (IE) 5.5 with service pack 2. This was required for security concerns. This IE upgrade **is not** compatible with our new VN forms using Omniform over the Internet at the FEDS web site. Therefore, we have established a folder with all of our forms on Avnokcs5 server in folder "/Apps/omniform/4000-4999/4100-4199/" for OKC personnel. We will provide a form CD for the line stations. Form updates will coincide with GMM and RSM changes.

We are working with the vendor to correct the problem.

If you have any questions, cal me at 405-954-3406 (office), 405-954-3950 (desk) or 405-376-5162 (home).

Don, the Web Master

**WEB ADVISORY # 8 - October 31, 2001**

To All,

If you plan to take any of our Computer Based Training courses from the Electronic Maintenance Library (EML) web site, the new Macromedia Authorware player must be reloaded. We have changed the download link on the lesson web page to do this automatically. Just click and follow the yellow brick road.

If you have any questions or problems, call me at 405-954-3950 (desk), 405-954-3406 (office) or 405-376-5162 (home). Thanks.

Don, the Web Master

**WEB ADVISORY # 9 - November 5, 2001**

To All,

We have been experiencing difficulty loading GMM Chapter IV and beyond. Please load Acrobat Reader 5.0 from the download link on our Web Site. Restart your computer and this will fix the problem.

If you have any questions or problems, call me at 405-954-3950 (desk), 405-954-3406 (office) or 405-376-5162 (home). Thanks.

Don, the Web Master

**WEB ADVISORY # 10 - November 8, 2001**

To All,

We have established a backup Web Site for our Electronic Maintenance Library "<http://www.mmac.jccbi.gov/avn/300maint/maint.html>". The Web Site "<http://avnnet.jccbi.gov/avnmaint/Maint.html>" is on the FAA Intranet and will serve as an alternate if the main site is not accessible. It is not on the regular Internet and is only obtainable on the FAA Intranet. It contains a mirror image of all of the information on the primary site.

If you have any questions or problems, call me at 405-954-3950 (desk), 405-954-3406 (office) or 405-376-5162 (home). Thanks.

Don, the Web Master
